

EDUCATIONAL PHILOSOPHY

The Board is committed to providing a program of education that is consistent with the following tenets.

1. Education contributes to the continuous improvement of our democratic society and the cultures it encompasses through the development of concerned, contributing and patriotic citizens.
2. The dignity and worth of the individual is respected. Each individual is given the opportunity to participate in our society to the best of his/her ability.
3. The educational program is conducive to the optimum intellectual, physical, social and emotional development of all youth.
4. Basic knowledge, skills, understandings and appreciations are necessary for full-life functioning.
5. All youth are introduced to the humanities and the arts and provided the opportunity to pursue further studies in these areas.
6. The immediate and projected personal and societal needs of our youth receive continuous appraisal.
7. The development of self-appraisal skills, decision-making techniques and self-discipline by our youth helps them in assuming the responsibility for setting realistic immediate and long-range personal, academic and career goals.
8. The development of moral and ethical values on the part of youth is an important aspect of personal maturity for which the parents assume the primary responsibility. However, the schools strive to reinforce their efforts.
9. Continuous physical, mental and emotional growth and development is promoted through the maintenance of appropriate educational programs for youth.
10. Self-realization and self-expression are encouraged.
11. The educational program meets or exceeds the State Board of Education standards.
12. The development and implementation of a program of continuous evaluation based upon stated goals and objectives are necessary for effective program revision and improvement.
