

## SCHOOL PROPERTIES DISPOSAL

The Board believes that the efficient administration of the District requires disposition of property and goods no longer necessary for the maintenance of the educational program or operation of the District.

The Board recognizes that most unused property of the District has value and that it may be practical to retain such property for a period of time. Once property is no longer needed for school purposes currently or in the future, it should be slated for disposal at the Superintendent's discretion. State law governs the retention and method of disposal of the Board's property. Property and goods purchased with federal funds also are subject to the disposal requirements outlined in the Uniform Guidance issued by the U.S. Office of Management and Budget. Therefore, the Board follows the procedures required by the various statutes governing the disposal of real or personal property.

The Board follows the procedures set forth in State and Federal law for the disposal of real or personal property at the minimum dollar value set forth in the statute on the date the Board decides to dispose of the property. The Board is required to offer its real property for sale to all community schools, college-preparatory boarding schools, STEM and STEAM schools for the period of time set forth by law. High performing community schools as defined by State law, are given first priority. If a high-performing community school is not interested in buying the property, the Board then proceeds with offers to purchase from other start-up community schools operating in the District, college-preparatory schools, STEM and STEAM schools located within the territory of the District. If no community school, college-preparatory boarding school, STEM and STEAM school is interested in buying the property, the Board may sell its real or personal property at a public auction, following specific statutory requirements if the property exceeds \$10,000 in value. If this statutory threshold is changed by the legislature, the Board and administration's responsibility changes automatically to reflect the new minimum statutory dollar value.

The Board directs the periodic review of all District property and authorizes the disposition by sale, donation, trade or discard of any property not required for school purposes.

The District complies with State law regarding the sale or lease of unused school facilities to high-performing community schools, community schools, college-preparatory boarding schools STEM and STEAM schools.

### Disposal of Property Valued at Less Than the Dollar Value Set Forth in State Law

For the disposal of property, which is not governed by Federal law, the Ohio Revised Code or administrative regulations, the administration is required to follow these procedures:

1. The Superintendent determines that the value of the property is less than the value set forth in State and Federal law when applicable. The property is valued pursuant to a reasonable method as determined by the Superintendent.

2. The Board is notified when real or personal property is no longer needed for school purposes and directs that the property be sold.
  
3. The Superintendent sells the property to a start-up community school or by bids, general sale, negotiated sale or by trade as determined by the Superintendent or the Board on an individual basis.
