

## FIRST AID

The school nurse develops guidelines for the emergency care of any student or staff member who is injured or becomes ill at school or while engaged in a school-sponsored activity. The guidelines are reviewed by the Board prior to implementation.

The guidelines provide for at least one person in each building to have special training in first aid.

The District provides employee automated external defibrillator (AED) training in accordance with State law. Compliance with this training requirement is reported to the Ohio Department of Education by November 30 annually through the consolidated school mandate report.

If the District reports noncompliance the Superintendent/designee must provide a written explanation to the Board within 30 days explaining this noncompliance and a written plan of action for accurately and efficiently addressing the problem.

In the case of an emergency involving a student, the emergency medical authorization form is followed and efforts are made to contact the parent/guardian.
