

FAMILY LIFE EDUCATION/SEX EDUCATION

The Board believes that the purpose of family life and sex education is to help students acquire factual knowledge, attitudes and values, which result in behavior that contributes to the well-being of the individual, the family and society.

Helping students attain a mature and responsible attitude toward human sexuality is a continuous task of every generation. Parents have the primary responsibility to assist their children in developing moral values. The schools should support and supplement parents' efforts in these areas by offering students factual information and opportunities to discuss concerns, issues and attitudes.

In addition to the requirements listed below, the policies and regulations concerning the approval of new curriculum content, units and materials apply to any course(s) dealing with family life and sex education.

1. Instructional materials to be used in family life/sex education are available for review by parents during school hours.
2. If, after review of materials used and a conference with the instructor and principal, a parent requests that his/her child not participate in a given aspect of the course, an alternate educational assignment is arranged for that student with the approval of the principal.
3. Teachers who provide age-appropriate instruction in family life/sex education have professional preparation in the subject area.
4. Instruction in sex education emphasizes the health benefits of abstinence.
