

GROUPING FOR INSTRUCTION

The District may group students in order to increase the effectiveness of each teacher and to make it possible for the teacher to individualize instruction by narrowing the range of student needs within a particular class. Assignment of students to classes should be done on the basis of what is best for the individual students.

Good administration takes into account the importance of parental understanding and acceptance of the grouping procedure used in the school. The school principal should cooperate with parents and teachers and other staff members in striving for the most effective placement of students into classes. The assignment of classes to teachers is the responsibility of the Superintendent, working in cooperation with the principals and the teachers concerned.

Grouping within the classroom is desirable. Teachers should be encouraged to carry out this procedure. Grouping should be flexible. Some students may be grouped together for one activity but regrouped for another activity. Students should not, as a rule, remain in the same groups throughout the school year.
