

PHYSICAL EXAMINATIONS OF STUDENTS

The District requires health records of students under the following circumstances.

1. Kindergarten and first-grade students entering school for the first time must have a completed health record before being admitted to school.
2. Health records are requested for all students transferring into the District. If the previous school does not forward a record or if it is incomplete, it is the parents' responsibility to comply with health requirements for students.
3. Students must have physical examinations prior to their participation in interscholastic athletic programs.

Parents have the right to refuse to allow their child to participate in nonemergency invasive physical examinations or screenings. Invasive physical exam is defined as any "medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion or injection into the body, but does not include a hearing, vision or scoliosis exam."

The District notifies parents, on an annual basis, of the administration of health and physical screenings and examinations and, thereby, gives parents the opportunity to exclude their children.
